SUMMARY

A user-focused Web Designer & Front-end Developer with hands-on experience in building responsive, user-friendly websites using HTML, CSS, JavaScript, and WordPress. Skilled in translating design concepts into functional interfaces. Completed client projects with a focus on performance, usability, and modern design standards. Eager to contribute to a dynamic team and grow as a developer in a challenging environment.

OBJECTIVE

To join a team as a Front-end Developer where I can directly contribute by building responsive web applications and enhancing the user experience. Eager to take my skills to the next level by learning new technologies.

PROFESSIONAL EXPERIENCE

WEB DESIGNER

Xp freelancer (Marketplace) | present

Designed and developed user-friendly websites by collaborating with clients to understand their needs and preferences. Created responsive layouts and optimized graphics for various devices. Conducted usability testing and implemented feedback to enhance functionality and aesthetics, ensuring an engaging user experience.

EDUCATION

B.SC. IN COMPUTER SCIENCE

University of the people . Pasadena, California, USA | 2025 - present

Studying core areas of computer science including programming, data structures, and software development. Focused on building strong technical and problem-solving skills in a flexible, global learning environment.

COURSES AND CERTIFICATES

FRONT-END DEVELOPMENT

Twinsoft Technology . Feni, Bangladesh | April 2023 - February 2024

Developed skills in creating responsive web applications using HTML, CSS, and JavaScript. Gained proficiency in front-end frameworks, version control systems, and user interface design principles. Engaged in practical projects to enhance problem-solving abilities and improve user experience through intuitive designs.

INTRO TO EXPLORATORY DATA ANALYSIS WITH EXCEL

Great Learning Academy . Bengaluru, India. | Jan 2024 - May 2024

Gained proficiency in exploratory data analysis using Excel, including data visualization techniques, statistical analysis, and the interpretation of complex datasets. Developed skills in employing various Excel functions, creating pivot tables, and generating insightful charts to support data-driven decision-making.

PYTHON DEVELOPER

Sololearn. Pleasanton, California | Jan 2024 - May 2024

Completed a Python Developer course focusing on core programming concepts, data structures, and algorithms. Gained hands-on experience in building applications using Python, mastering libraries such as Flask and Pandas. Developed skills in debugging, testing, and collaborating in Agile environments to create efficient and scalable code.

INTRODUCTION TO MACHINE LEARNING

Great Learning Academy. Bengaluru, Karnataka 560102 • India. | May 2024 - Dec 2024

Learned the basics of machine learning, including key algorithms, model evaluation, and real-world applications.
